Average doctors salary	<u>71,365</u>
2016 Average doctors salary	<u>66,760</u>

Number of full time Partners/Sal GP's working six months consecutively
Number of part time Partners/Sal GP's working six months consecutively
Number of locums working six months consecutively

NHS England require that the net earnings of doctors engaged in the practice is publicised, and the required d below. However it should be noted that the prescribed method for calculating earnings is potentially misleadi account of how much time doctors spend working in the practice, and should not be used to form any judger earnings, nor to make any comparison with any other practice.

All GP practices are required to declare the mean earnings (e.g. average pay) for GPs working to deliver NHS s

The average pay for GPs working in St James Surgery in the last financial year was £71,365 before tax and Nat This is for 2 full time GPs and 3 part time GPs who worked in the practice for more than six months.”
